

OUR SERVICES

- **INDEPENDENT APC TECHNOLOGY CONSULTING**
- **AptiTune™ MULTIVARIABLE PID TUNING SOFTWARE**
- **APC TRAINING FOR PROCESS & CONTROL**

IPCOSAptitude Ltd specializes in providing software implementation products and services for the fast deployment of Advanced Process Control (APC) and real-time optimization applications in the oil, gas and chemicals industries. These include APC, process operations analysis, benefit studies, application maintenance and APC training services. The IPCOSAptitude team has significant experience managing large, complex projects and satisfying multiple stakeholders. IPCOSAptitude also develop and license the AptiTune™ multivariable PID tuning software.

We operate all over the world working with our customers to define their specifications and carry out their projects. Our experts have many years of hands-on experience and have worked on some of the largest projects in the industry to deliver improved and rapid returns with minimum risk.

Maximising the performance of a processing plant is a highly delicate and complex process requiring the most sophisticated control and optimisation strategies. Contact us today to discuss your APC issues.

- ✓ **Performance studies**
- ✓ **APC benefit studies**
- ✓ **Instrumentation recommendations**
- ✓ **PID tuning**
- ✓ **DCS reconfiguration work**
- ✓ **Inferential modelling**
- ✓ **Turnkey APC projects Operator**
- ✓ **APC training services**
- ✓ **Engineer APC training services**
- ✓ **Post audit studies**
- ✓ **Controller revamp projects**
- ✓ **Project management**
- ✓ **Program management**

- ✓ **Gas processing**
- ✓ **Oil refining**
- ✓ **Chemicals**
- ✓ **Petrochemicals**
- ✓ **Food processing**
- ✓ **Pulp and paper production**
- ✓ **Power and energy**
- ✓ **Mining and minerals**
- ✓ **Cement industry**

With our combined experience of over 130 years, isn't it time you got us to look at your plant?
